

## Pitcairnia Angustifolia

### Date

1802-1816

### Primary Maker

Pierre-Joseph Redouté

### Medium

Stipple engraving, hand colored

### Description

Botanical print of Pitcairnia Angustifolia (pina cortadora), a plant with thin spiky green leaves, a thin green stem, and thin red flowers. The plant is cut in half to show all of it on one page; details of the flowers and seeds are included near the bottom. Plate 76 from volume II of "Les Liliacées".

### Dimensions

20 x 16 in. (50.8 x 40.6 cm)
