

## Neottia Elata

### Date

1802-1816

### Primary Maker

Pierre-Joseph Redouté

### Medium

Stipple engraving, hand colored

### Description

Botanical drawing of Neottia Elata, an orchid plant with tuberosous roots, green stem and leaves, and tiny white flowers. The plant is cut in half to show both the base and flowers at the top; details of the seeds and flowers are included near the bottom. Plate 164 from volume III of "Les Liliacées".

### Dimensions

20 x 16 in. (50.8 x 40.6 cm)
