

Basic Detail Report

XXXII

Date

1734-1755

Primary Maker

Albert Seba

Medium

Copperplate engraving, hand colored

Description

Two white moles, one black mole, two gray moles, one mole skeleton, and two large cats described in the text as tigers, but more likely cheetahs, leopards, or jaguars based on their spots rather than stripes. Plate 32 from volume I of "Locupletissimi Rerum Naturalium Thesauri," Amsterdam: Wetsten, Smith and Waesberg, 1734-1755.
